Please use the online search tool for information on a specific drug.

## What Are Specialty Drugs?

They're prescription medications that are used to treat complex or chronic medical conditions like hepatitis, cancer and autoimmune diseases like rheumatoid arthritis and multiple sclerosis, just to name a few. They usually require patient-specific dosing and careful clinical monitoring. They may also require special handling and refrigeration.

## How Are Specialty Drugs Covered?

When you have a prescription for a specialty drug filled at the pharmacy, it is covered under your health plan's **pharmacy benefit**.

Specialty drugs that are administered in a medical setting by a healthcare professional are typically covered under your **medical benefit**.

Some specialty drugs that can be self-administered **must** be filled under the pharmacy benefit and are not covered under the medical benefit.

## What Should I Do If My Specialty Drug Is Excluded from Coverage?

You and your doctor make the final decision about the medications that are right for you. If your doctor believes no alternative drug will work for your medical condition, you or your doctor can request a **formulary exception** by calling the Customer Service number on your ID card.

**Note: Formulary exceptions can only be considered with required documentation from the member's health care provider.**

## What is Prior Authorization?

Prior Authorization (PA) is a quality and safety program that promotes the proper use of certain medications. If your doctor prescribes a specialty drug that requires Prior Authorization, as determined by your plan, you must get prior approval before your plan will cover your medication.

Prior authorization promotes the proper use of medications. We base prior authorization guidelines

on U.S. Food and Drug Administration and manufacturer guidelines, medical literature, safety, accepted medical practice, appropriate use and benefit design. Many specialty drugs require PA from your health plan. Note that a PA does **not** guarantee eligibility or payment of a claim.

Drugs that are typically covered under the pharmacy benefit require PA if a member's benefit allows them to be billed under the medical benefit.

Some drugs covered under the medical benefit may only be authorized to be administered in certain locations (sites of care), such as an infusion center or the patient's home.

## How Do I Get a Prior Authorization?

### Under the Pharmacy Benefit

Please call **855-811-2218** to request PA for these drugs.

### Under the Medical Benefit

To start the PA process, providers should sign into the health plan's provider website to access the online medical prior authorization system. Providers can also request prior authorization by calling **877-440-0089** or faxing requests to 612-367-0742. Provider specialty is considered when reviewing all medical and self-administered drug prior authorization requests.

## Where Can I Get My Specialty Drugs?

Under the pharmacy benefit, most benefit plans require specialty drug prescriptions to be filled by our preferred specialty pharmacy, **Optum Specialty Pharmacy**. Optum Specialty Pharmacy is a service provided by Optum Rx, an independent company that provides pharmacy benefit management services on behalf of our health plans. You can contact Optum Specialty Pharmacy at **877-259-9428**.

Usually, your doctor will call or fax a prescription directly to a specialty pharmacy. If your prescription requires prior authorization, the specialty pharmacy will tell your doctor how to request this.
